LEARNING about MILDRED

I have no family to speak of
and even fewer friends.

Unless you count my
rodent familiars that is.

Sarah and Tim

They came to me last
year. A married brother
and sister.

Disgusting.

To the best of my knowledge, I was born in a test tube.

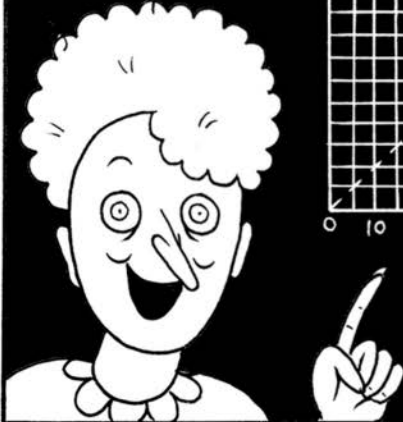

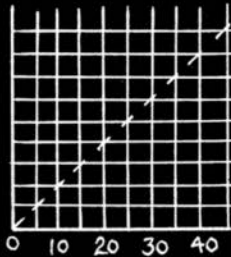

Only with the aid of a hormone did I reach full maturation

6'0"
5'0"
4'0"
3'0"
2'0"
1'0"

And the rest of my growth followed that of a normal human trajectory.

Not a single abnormality to speak of!

There are gaps in my memory, I'll admit.

from which laboratory
did I arise?

under whose scalpel?

how did I arrive in
this house?

am I being watched?

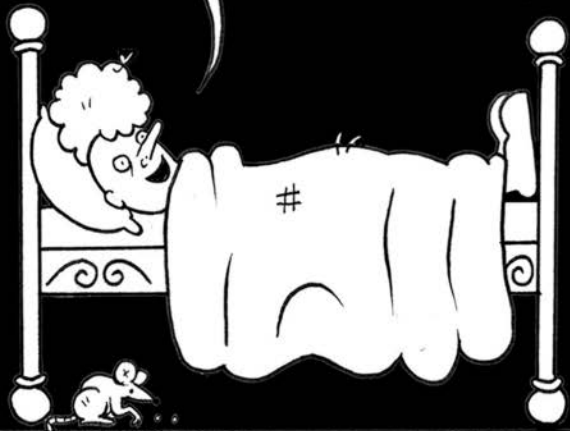

Not to mention this scar on
my head. Pizza slicer
accident? Gang fight?
Lobotomy?

My suspicions are with
lobotomy.

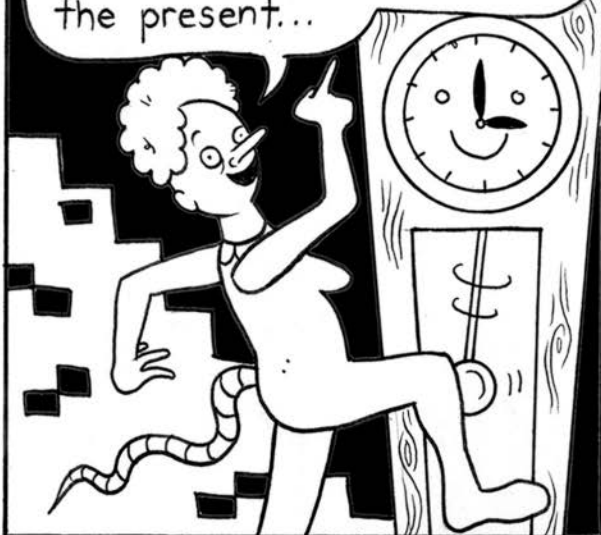

Fortunately, I lose no sleep
over these questions

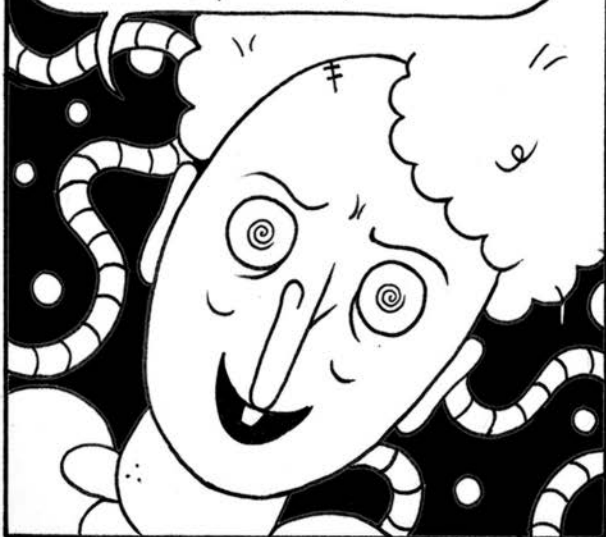

Onwards and upwards
I say!

Because there's no time like
the present...

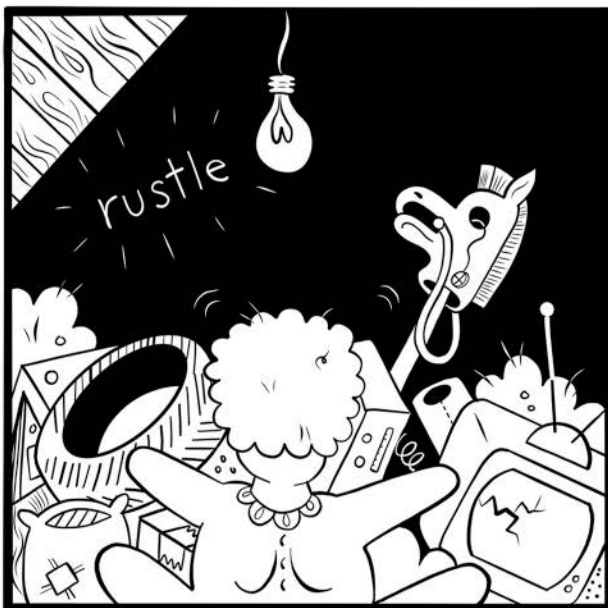

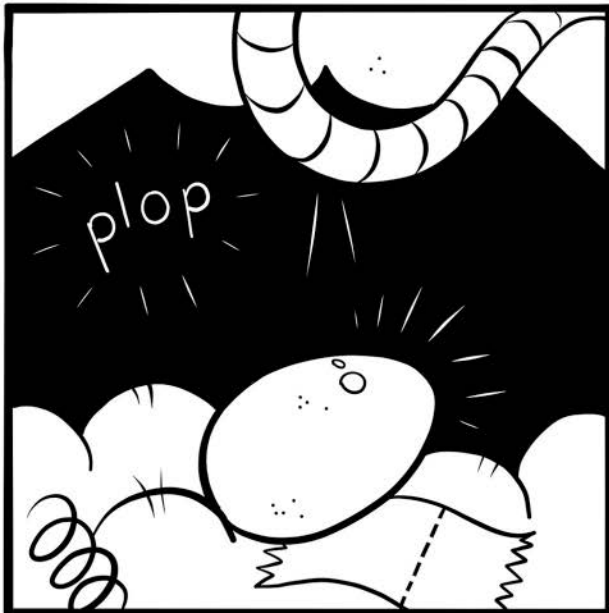

And the present is now !!

SLEEPING AND DREAMING WITH WILDRED

I lie awake at night

thinking thoughts

Such a whirlwind

who can keep track?

of all the dark shadows lying in

the past

NEEDLES IN MY
BRAAAAIIN!!!

AND PILLS IN MY HEAD!!

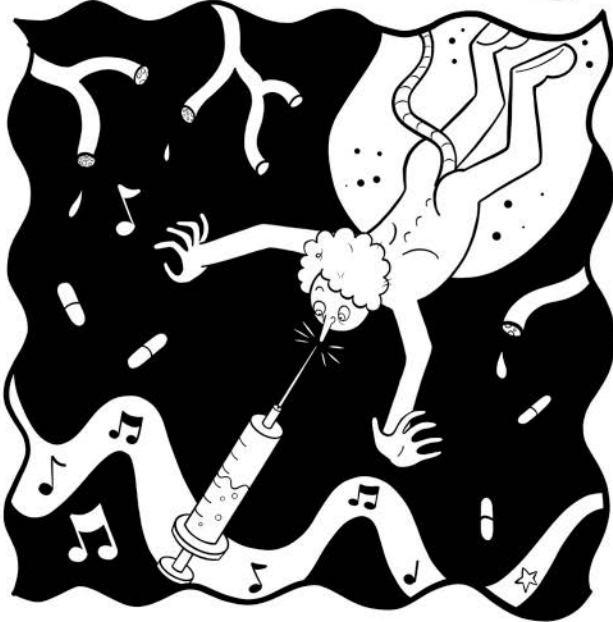

NOBODY KNOWS!!!

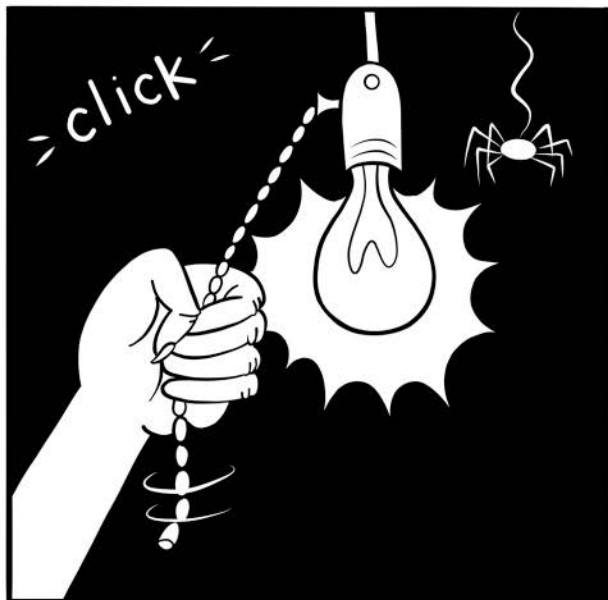

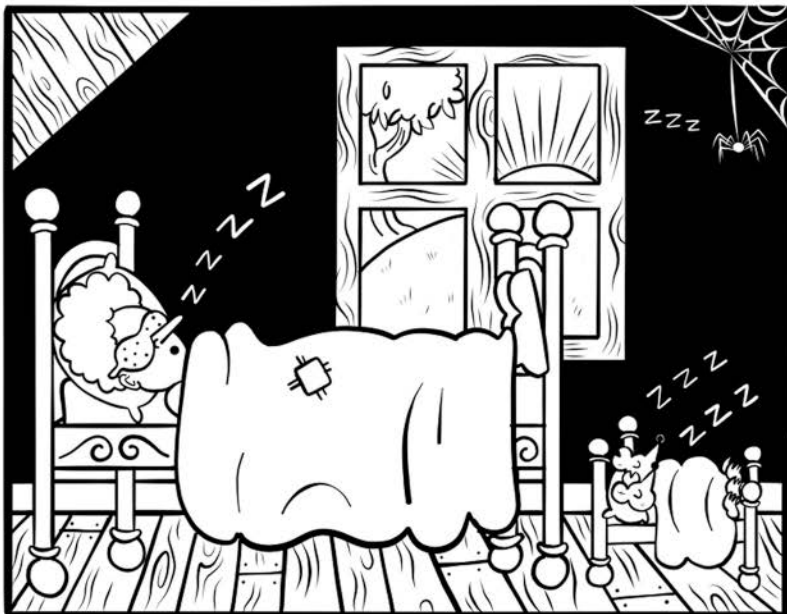

WHOAAA

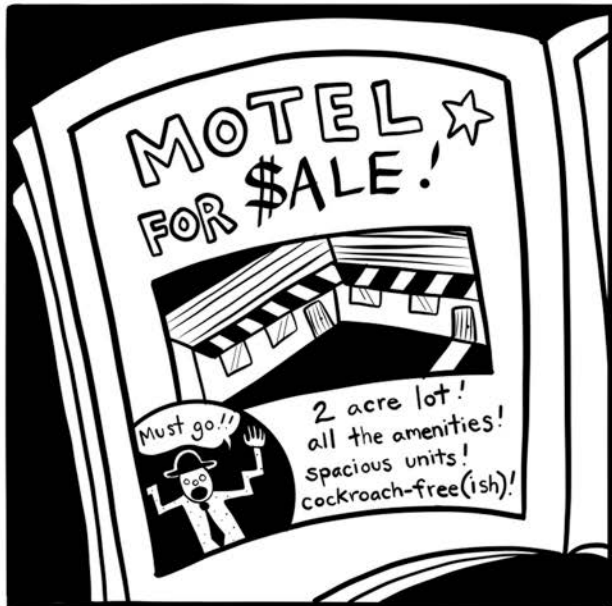

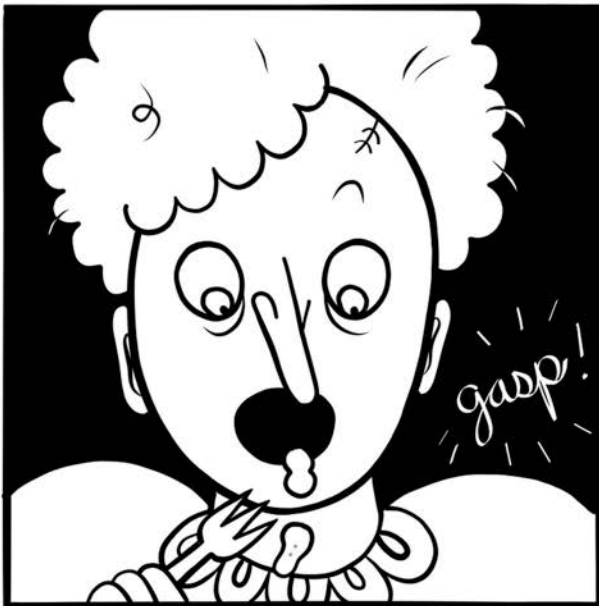

BURL

Life as an innkeeper would afford me luxuries of companionship I have only heretofore dreamt of!!

My guests will all become my friends of course.

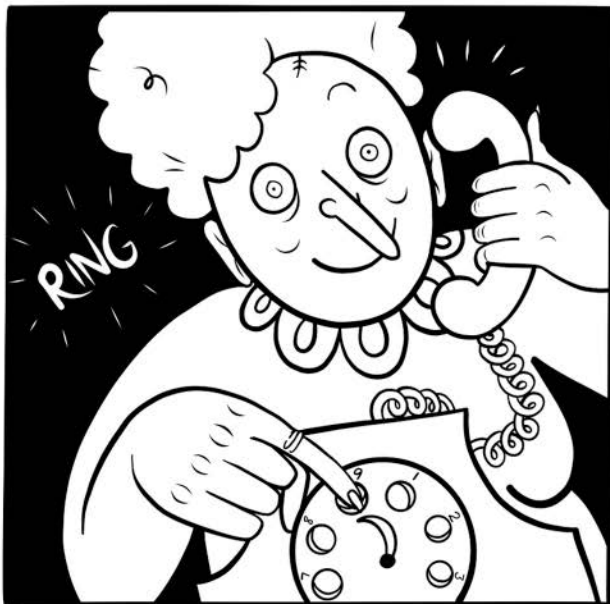

I'll win them over with my gifts of hospitality. For I love to provide!

and observe...
